Vacation Student Program Overview

The Quadrant Energy Vacation Student Program provides opportunities for Perth based university students in their penultimate year of study to join the organisation for a paid 12 week program to gain insight into working in the oil and gas industry.

The Vacation Student Program runs from December to February each year.

What to Expect

Our Vacation Program involves:

- Real work which will make a genuine contribution to our projects
- Possible offshore visits
- Presenting on the work you undertake
- Presentations from guest speakers on a broad range of oil & gas topics
- Networking functions

You will be assigned to a team where you will get the opportunity to work on actual projects in real time. You will be assigned a direct supervisor to manage your work flow and a buddy to assist you with navigating the business structure and help you get the most out of your Vacation role.

At the end of the assignment, you will have the opportunity to give a presentation on your vacation work to the executive management team.

2.
